SUMMARY

Detail-oriented and passionate Web Developer with strong skills in front-end and back-end technologies. Proficient in HTML, CSS, JavaScript, tailwind css, react js node.js Skilled in building responsive, user-friendly websites and web applications. optimizing code performance, and collaborating in team environments to deliver high-quality projects. Eager to contribute technical expertise and innovative solutions to enhance user experience and business growth.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), tailwind css, react js
Responsive

Backend: Java, node.js

-
- Web Design ;
- Database: MySQL, SQL
- Frameworks & Tools: Git/GitHub, VS Code, Eclipse/IntelliJ
- Other Skills: Debugging, REST API Integration, Agile Basics

Academic Projects

1. Smart night vision accident detection system

- A real-time accident detection system used in night to overcome delay in rapid emergency help
- Combines smart sensors and IOT to encounter the accident and generate alert to the control room with the location

2. Weatherly – Smart Weather & Farming Advisory App

Tech Stack: HTML, CSS, JavaScript

- Developed a responsive weather application where users can search any city to get real-time weather updates (temperature, humidity, rain prediction, etc.).
- Integrated a farming advisory system that provides crop suggestions and agricultural tips based on weather conditions.
- Added rain prediction and climate insights to help farmers make informed decisions.
- Built with clean UI/UX for ease of use, focusing on both urban users and the agriculture community.
-

EDUCATION

Bachelor of Technology in Computer Science and Engineering Aug 2022- June 2026

- Tula's Institute, Dehradun (Affiliated to Uttarakhand Technical University) CGPA:
- 5.5
- Relevant coursework in Data Structures, Algorithms, Database Management, and Software Engineering.
- Academic projects and research in Web Development, Artificial Intelligence, and Cloud Computing.

ADDITIONAL INFORMATION

- **Languages:** Hindi, Bhojpuri, English.
- **Certifications:** AI for Beginners – HP LIFE (2025): Learned key AI concepts, applications in business, importance of data, and ethical implications.
- Cybersecurity Analyst Job Simulation – Forage (2024): Completed practical tasks in identity & access management, IAM strategy assessment, custom IAM solutions, and platform integration.
